Subject: ATTN: Mayor and Members of Council

Good morning we are writing this in regards to tonight's General Committee meeting involving the investigation of updating the skateboard park. We are the new Barrie Skateboard Association, and we are very excited to hear this is up for discussion and we are interested in helping any way we can. The park needs some new lighting and the drains need maintenance. We would love to be involved as much as we can be with this potential update and would love to discuss ideas on maintenance and fund raising for future projects involving the skateboard park. We are committed to providing a clean, safe, fun and friendly environment at the skateboard park so everyone can enjoy it. Thank you for your consideration.

The Barrie Skateboard Association:
