Mr. Vella discussed slides concerning the following topics:

- The details of the proposed Site Plan associated to the application;

Mr. Vella concluded his presentation and indicated that he believed the application is in conformity with the goals and objectives of the Provincial and Municipal Planning Policies.

Ms. Bailey Chabot, Planner, Planning and Building Services provided details concerning the application, as well as the primary planning and land use considerations associated with the application. She discussed the comments and concerns of the members of the public in attendance at the Neighbourhood Meeting held on September 5, 2018 and the anticipated timelines of the staff report.

**VERBAL COMMENTS:**

1. **Mr. Robert Thompson, 223 Pringle Drive**, expressed his concerns associated with the minimal amount of parking proposed for the development and the impacts that this will have on the area residents and the parking in the surrounding neighbourhoods.
2. **Mr. Mark Childs, 103 Edgehill Drive**, noted that he had provided written comments detailing his concerns. Mr. Childs discussed his concerns associated with the proposed development such as it being very dense, that the buildings seem to be located too close to the Edgehill Drive sidewalks, the safety concerns due to poor visibility for pedestrians and emerging vehicles, the limited public access to amenity spaces, the lack of parking spaces and the placement of stairs in the front and back of the units to parking. Mr. Childs commented that the proposed development lacks yard spaces, and is too large of a development for the area.

Mr. Vella responded to some of the issues raised by Mr. Childs.

Members of General Committee asked a number of questions of the Applicant's representative and City staff and received responses.
