Title:	MULTI-MODAL ACTIVE TRANSPORTATION MASTER PLAN				

T. Reeve, Senior Infrastructure Planning Program Coordinator of the Engineering Department provided a presentation regarding the Multi-Modal Active Transportation Master Plan.

T. Reeve discussed slides concerning the following topics:

- An overview of the Infrastructure Master Plans;
- An illustration identifying the areas where the Infrastructure Master Plans will be utilized;
- A map illustrating the population growth projections for 2041;
- A chart illustrating the current modal split and the 2041 targets for active transportation and transit;
- A chart and map illustrating the City's existing and additional cycling infrastructure;
- A map illustrating the areas that are short term and medium term priority road projects;
- The highlights for Active Transportation including Off-Road Trails, In-Boulevard Pathways, Cycle Tracks, Buffered Bike Lanes, Bike Lanes, Paved Shoulders, Signed Routes and Sidewalks;
- The transit services, principles and additional measures recommended by the study; and
- A map illustrating roads in the secondary plan growth areas, ROW protections, road diets and the HOV lanes.

Members of the Committee asked a number of questions to City staff and received responses.
