BRIEF STATEMENT OF PURPOSE OF THE OPEN DELEGATION: We have had issues with our foundation. We fought the builder and TARION all the way to the Licence appeal tribunal. The LAT ordered TARION to fix our foundation. The LAT also decided with our engineers report. In our engineer's report it recommends hooking up to the city system. Currently there are approximately 30-40 homes in our neighborhood and nanny on our street and many on our side of the street that are hooked up to the city system. The criteria the city stipulates seems to change, we even offered to get written direction from our engineer, and we have sent empirical evidence only to be evaded and dismissed. We are requesting our sino pump to drain into the city system as there is already water issues with the system barely rubbing and once the pump system is running 100% we and our neighbiurs are at risk of future damages to our properties if we allow the water to saturate between our homes.
