RECOMMENDED MOTION

1. That By-law 2009-098, the Public Tree By-law be repealed and replaced with a by-law incorporating the proposed administrative revisions included in Appendix "A" to Staff Report RPF011-14.

PURPOSE & BACKGROUND

2. On June 1, 2009, City Council adopted Motion 09-A-284 regarding the update of the Public Tree By-law 76-162:

"Bill #107 (By-law Number 2009-098) a By-law of the Corporation of the City of Barrie, regulating the planting, protection, maintenance and removal of public trees and trees growing on adjacent privately owned lands and to repeal By-law 76-162 and all amendments thereto."
3. Section 10 of the Municipal Act, 2001, provides that a single-tier municipality may pass by-laws respecting matters set out therein including, inter alia, the economic, social and environmental well-being of the municipality.
4. Section 135 of the Municipal Act, 2001, provides that a municipality may prohibit or regulate the destruction or injuring of trees.
5. Since 2009, internal restructuring has taken place causing name changes to departments and reallocation of responsibilities for the administering of By-laws.
6. The Urban Forest Strategy (2014) identified the need to complete a comprehensive review and update of forestry by-laws and policies on a 5-year basis.

ANALYSIS

7. The City of Barrie is approximately 10,000 hectares in area, and currently includes approximately 1,600 hectares of forested areas on private (64%) and public (36%) lands. The largest tracts of public forest are in the Ardagh Bluffs parkland and Little Lake Park, with other significant tracts of forest in Lovers Creek Ravine, Hewitt Creek Corridor, Sunnidale Park and Sandy Hollow Ravine.
8. There are currently 34,000 inventoried street trees and approximately 15,000 trees in public parks around playgrounds, walkways and sports fields.

9. In 2013, forestry staff completed approximately 2,400 work orders (increase of 20% from 2012) on city owned trees on streets, in parks and in forested environmental protection areas. 2013 totals included 650 removals, 700 street trees planted, 770 trees pruned, 1,500 tree health inspections, 170 stump grindings and 95 other arboricultural treatments.
10. In 2009, a tree maintenance company was discovered and charged with pruning, topping and removing trees within Melinda Woods Park. The tree company was hired by a resident to cut the trees to improve their view of Lake Simcoe, however, due to the wording in the by-law there was no clear way to charge the owner who hired the company without direct proof or testimony by the tree company. The tree company was found guilty by the court and fined \$11,000. A later appeal resulted in the fine being reduced to \$3,500.
11. Eight administrative revisions have been recommended to the Private Tree By-law to bring it up to date with current naming conventions (departments, job titles) and to improve the definitions within the by-law intended to address owners or corporations who hire companies to destroy trees on public land, as well as better define the fine structure within the by-law. Appendix 'A' lists the current and proposed wording changes within the by-law. Appendix "B" includes the proposed changes included within the revised by-law.

ENVIRONMENTAL MATTERS

12. Trees and forests provide many valued services to the community including:
 - a) Reduction in heat island effect resulting in lower energy consumption in the summer;
 - b) Reduction in winter winds resulting in lower energy consumption in the winter;
 - c) Sequestering of greenhouse gases in trees;
 - d) Stabilization of slopes and natural areas;
 - e) Provision of wildlife habitat; and
 - f) Interception and absorption of rainfall and surface water flows, improving the water cycle.

ALTERNATIVES

13. There are two alternatives available for consideration by General Committee:

Alternative #1 General Committee could maintain the existing By-law and associated policies with respect to protection of trees within the City of Barrie (i.e. Status Quo).

This alternative is not recommended as the existing Public Tree By-law (2009-098) is not up-to-date in terms of department names and titles and does not reflect updates recommended by city Legal staff.

Alternative #2 General Committee could alter the proposed recommendation by directing staff to make additional changes to By-law 2009-098.

This alternative is not recommended as staff have completed a comprehensive review of the by-law to ensure the proposed changes are relevant and comparable with other municipalities' tree by-laws.

FINANCIAL

14. There are no financial implications for the Corporation resulting from the proposed recommendation.

LINKAGE TO COUNCIL STRATEGIC PRIORITIES

15. The recommendation included in this Staff Report support the following goal identified in the 2010-2014 City Council Strategic Plan:
 - Manage Growth and Protect the Environment

16. Prohibition of the injury or destruction (removal) of trees on public land in the City of Barrie provides a measure of protection, control and monitoring of essential environmental, social and economic services that trees provide to residents.
