

## Idea Sandbox: Decision Making Tool

*Helps you make the best quality decisions.*

How To Use:

- (A) Enter the decision you are considering and evaluating.
- (B) Enter your "qualities of this decision." Values you consider important.
- (C) Rank these qualities [3 through 1]. See legend at bottom of page for score values.
- (D) List the Options you are considering; the possible solutions that need to be compared.
- (E) Score [from 3 through to 0] how well each Option supports each quality.

A score will appear above each Option. The Option with the highest score should be considered the most desirable choice.

(A) Decision to Evaluate		What type of facility at the existing DPC location will best serve the community?				
Score		22	22	20	16	18
(D) Options		Warm up/Cool down space with washrooms	Pavilion with washrooms	Public washroom building with power/water access for events, etc	Community Centre/rental space	Café
(B) Qualities of this Decision	(C) Rank	(E) Meets Need?	(E) Meets Need?	(E) Meets Need?	(E) Meets Need?	(E) Meets Need?
Building enhances the park	3	3	2	2	3	3
Affordable to use	1	3	3	3	1	2
Affordable to build/operate/maintain	2	1	3	3	0	1
Quick solution	1	2	3	3	0	1
Community Satisfaction	2	3	2	1	3	2

[ Rank: 3 = very important | 2 = pretty important | 1 = important | Meets Need?: 3 = very true | 2 = true | 1 = fairly well | 0 = not at all ]
